Planned Purity builds purity from the foundation up, using the diagram of a house to make it easy to understand... just like our logo! Planned Purity for parents is the definitive family guide to purity training, starting with purity of heart as the foundation for the embrace of sexual purity as a child grows. This complete guide includes a resources section with scripts, object lessons, family contracts and more.

Jennie Bishop is the author of the bestseller *The Princess and the Kiss* (over 350,000 copies sold), *The Squire and the Scroll*, and *Planned Purity for parents*. Planned Purity is the purity training method Jennie has taught for years in the US and abroad in PurityWorks Saturday seminars.
